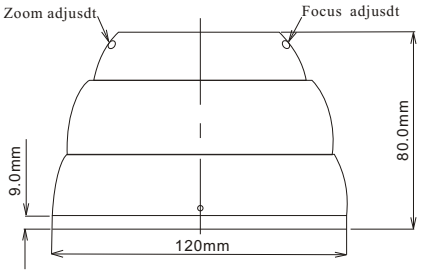
-

CAUTION FOR SAFE OPERATION

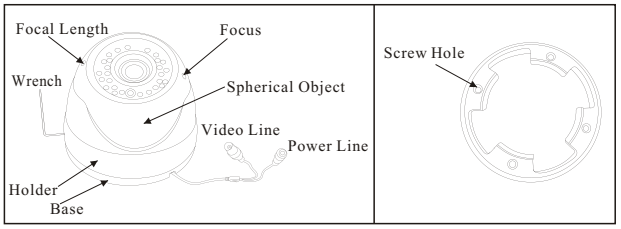
1. Power supply
   (1) Use only with a 12V DC REGULATED power supply.
   (2) Be sure to connect each lead to the appropriate terminal. Wrong connection may cause malfunction and/or damage to the video camera.
2. Operation and storage
   (1) Do not attempt to aim the camera at the sun or other extremely bright objects.
   (2) Do not place the camera in the following locations.
   ① Locations subjected to temperatures lower than -10° C or higher than 50° C
   ② Locations subjected to humidity and dust levels higher than 95%
   ③ Locations where there are large amounts of water vapor and steam.
   ④ Locations subjected to excessive vibrations
   (3) When this camera is installed near equipments like wireless communication device which emits strong electromagnetic field, some irregularity such as noise on monitor screen may happen.
   (4) When plugging the power cord to an electric outlet, be sure to leave enough space around the outlet for easy access.

3. Operation
   Please keep camera from excessive striking and vibrations. Inappropriate use or storage will cause damage to the video camera.

INSTALLATION



INSTALLATION



1. Please take out the fixed screw using the allen wrench in the accessory bag. Or, just take hold of the base and turn it in a counterclockwise direction.
2. Separate the holder from the base.
3. Install the base onto the surface.
4. Then install the spherical object and its holder, and fix them with screws.
5. Adjust lens focal length.
